

NWA Medical Air Support

Riding and having fun is part of who we are and why we are part of the HOG Chapter. We enjoy spending time in the seat, taking backroads and enjoying the wind while enjoying the beautiful scenery around us.

While this is an enjoyable part of life for us, it also comes with risk. Whether you face road debris, weather issues, other vehicles or any other unexpected occurrence, there is a risk to riding. Although we hope these issues never result in an accident, it does happen.

There are two companies (Mercy Life Line and AirMedCare) locally who offer coverage for medical helicopter expenses if they are ever needed. These low annual fees can save you \$30,000 +/- in just flight cost alone. Coverage areas, benefits, cost, etc... may vary. Web sites and contacts are listed below for each company.

Take a look and consider this important coverage that we hope you never need.

Tip: Get both! You do not get to decide which one is brought to you in time of need.

Service Area

Branson West, MO | St. Robert, MO
Fort Smith, AR | Rogers, AR

Mercy Life Line is a hospital-based air ambulance service headquartered at Mercy Hospital—Springfield. Life Line serves patients in portions of Missouri, Arkansas and Oklahoma.

Mercy Life Line can be dispatched by a call from any individual, first responder, EMS, fire and rescue, law enforcement, physician, clinic or hospital.

All flights are conducted by, and operational control over all aircraft is exercised solely by Metro Aviation, Inc.
